

Live Auction

Commences at 8:00 p.m.

Live Auction Rules

Live Auction Commences at 8:00 p.m.

1. Each live auction item has a number assigned to it, and the items are displayed on the gym's main floor. They may be viewed prior to the auction, beginning at 5:00 p.m.
2. To enter a bid, raise your bid number high to attract the attention of the auctioneer. The auction is fast-paced, so bids must be made quickly.
3. Acceptance of your bid by the auctioneer is **BINDING**; a winning bid will be confirmed **IMMEDIATELY** by your signature on the bid contract.
4. Bid contracts will be delivered to the successful bidders' tables.
5. Payment in full is mandatory. All purchases must be paid for (in the auction bank) at the end of the auction. A receipt is issued for each purchase upon payment.
6. For your convenience, cash, check, Discover, MasterCard, and Visa are accepted by the bank. All sales are final; no exchanges or refunds.

*If you have registered for **EXPRESS BANKING**, a bid sheet confirming "paid" will be delivered to your table for each successful bid. (**NO WAITING IN BANK LINES** at the end of the evening!)
7. The auction committee has endeavored to catalog and describe the items and services accurately, but everything is sold "**AS IS.**" Please note restrictions/requirements regarding reservations and expiration dates. It is the **responsibility of the successful bidder** to contact donors where special arrangements are necessary.
8. The auction committee makes no express or implied warranties or representations for merchandise. Values set forth in the auction catalog are **donors' estimates** and are not guaranteed by the committee for tax purposes or general value.
9. The purchaser will receive a certificate for items not displayed. Unless otherwise specified, all gift certificates **must be used within one year** from the date of the auction.
10. All auction items must be removed from the Duchesne High School premises at the conclusion of the evening. Special arrangements for pick-up of large items must be made at the time of payment. Any items left for more than seven days become the property of Duchesne High School.

14 FUND-A-NEED: EXPANDING OPPORTUNITY IN STEM AND ROBOTICS

(Please see the project description on page 57!)

As part of our mission to educate each individual as a whole person in mind, body, and spirit, we strive to create the best possible learning environment for our young men and women. This year, we want to focus our Fund-a-Need project on the “mind” aspect of our mission and the need for STEM and Robotics labs.

Mr. Fritz Long, our Principal, will be partnering with the Duchesne faculty to maximize the effect of any donation we receive for our STEM and Robotics labs. The total cost of the project is estimated at \$65,000. With your gift, you will be partnering with our faculty and students to ensure that Duchesne’s tradition of an unmatched education experience continues.

Fund-a-Need 2015 Update

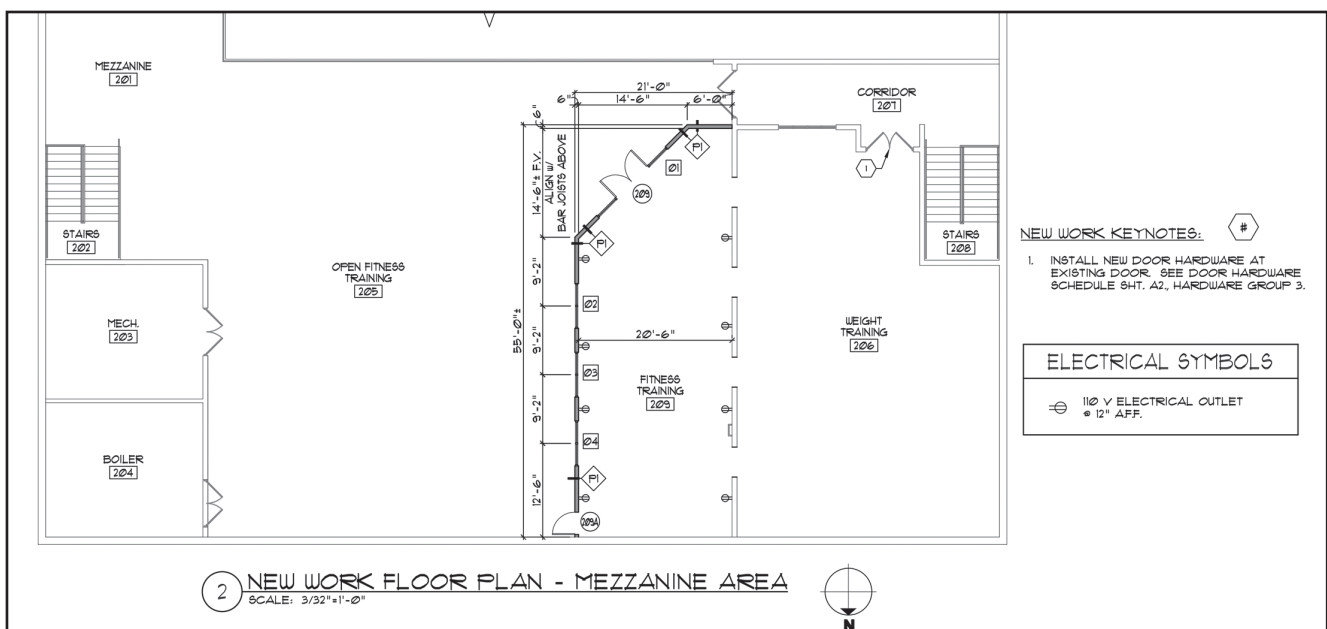

How Does a Weight Room Become an All-Student Fitness Center?

As our repeat guests who attended the 2015 auction will recall, our Fund-A-Need request last year was for help in upgrading our weight room facilities. While you may not be able to see all the actions we have taken toward that goal, in fact, there has been a great deal of activity. We have summarized that below.

With your kind donations and support, we feel you are a partner in our mission. As our partner, we want to keep you fully informed of how this project has evolved and the progress that we are making.

1. Upgrading of the Weight Room Facilities was presented as our 2015 Pioneer Expedition Auction Fund-A-Need item.
2. Our Duchesne community responded with \$19,050 in donations at last year's event.
3. Subsequent to the auction, a major donor contributed an additional \$25,000 toward this project.
4. A few months later, that same donor pledged another \$5,000 as a challenge grant, for which we then needed to find matching donors.
5. Between two larger anonymous gifts, the Class of 1980's reunion gift, and several individuals' donations, an additional \$4,750 was raised and then rounded out to \$5,000 with a Boeing Company matching program gift. The \$5,000 challenge grant had been met and matched! An additional Boeing matching gift was received as well.
6. Because of our Duchesne community's generous response, we were able to revise and increase the scope of this project to include moving out a wall, which will better accommodate the upgraded equipment.
7. Once the decision to move a wall was made, an architect was hired to do drawings and specs.
8. After drawings were complete, the project was put out to bid.
9. Bids were narrowed down to two proposals, which then had to be sent to the Archdiocesan Office of Building and Real Estate for their input.
10. Next, we will select the final construction company and obtain permission from Archbishop Carlson to begin construction.

We predict an early May 2016 construction start time and hope to have the project completed before the start of our 2016-2017 school year.

2016 Fund-a-Need

Expanding Opportunity in STEM and Robotics

As part of our mission to educate each individual as a whole person in mind, body, and spirit, we strive to create the best possible learning environment for our young men and women. During the past few years, we have made significant financial outlays in areas of technology and facilities to work toward this goal. We seek to be good stewards of the funding and mission entrusted to us as we prepare our students for the challenges of the 21st century.

Last year, we kept facilities in focus and again included the “body” aspect of our mission. We asked for your assistance with the upgrading of our weight room facilities. With your help, we have begun the steps toward expanding our weight room and transforming it into an entirely different atmosphere – an all-student fitness center, designed for lifetime fitness. If you have not yet had the chance, please look on the page to the left for a progress update. Upon completion, the new all-student fitness center will be used by Duchesne students, whether it is for physical education courses, athletic training, or overall physical fitness goals.

This year, we want to focus our Fund-a-Need project on the “mind” aspect of our mission and the need for STEM and Robotics labs for programs such as our NEW Duchesne High School Scholars Academy, coming in the 2016-2017 school year. The Scholars Academy curriculum is driven by student curiosity. As students progress through the Scholars Academy, they will gain increasing control over their education. Scholars Academy students will take auxiliary courses designed to complement their core curricular learning, culminating in a senior-level capstone project of their choosing.

In order to make these programs a success for our students, we are in need of the following items for our STEM and Robotics labs. The STEM lab will be used for the sophomore year of the Scholars Academy, as well as for juniors and seniors not enrolled in the Scholars Academy that choose the STEM course as one of their electives. The Robotics lab will be used for the Robotics elective courses, in which students can enroll starting their sophomore year. These two labs combined will need to be furnished and equipped with:

STEM:

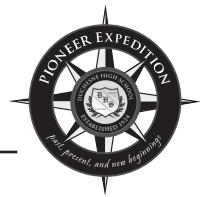

- LCD projectors
- Apple TVs
- Tables/workstations
- CAD software
- Desktop computers/laptops
- 3D printers

Robotics:

- Robot C STEM software
- Robotic kits
- Tournament fees
- Teacher training

Mr. Fritz Long, our Principal, has spearheaded the Scholars Academy program and is very excited to see the plans come to fruition. He also implemented the Robotics elective course, which made its debut this school year, with the assistance of select faculty members. Mr. Long will be partnering with the Duchesne faculty to maximize the effect of any donation we receive for our STEM and Robotics labs. The total cost of the project is estimated at \$65,000. With your gift, you will be partnering with our faculty and students to ensure that Duchesne’s tradition of an unmatched education experience continues.

Thank you for your support!

16 A MAGICAL VACATION

Grab your mouse ears and let the magic begin! You will enjoy four Walt Disney World One-Day Park Hopper tickets, which provide admission to each of the unique theme parks: the Magic Kingdom Park, Epcot, Disney's Hollywood Studios, and Disney's Animal Kingdom.
